

A modern interior space featuring a glass partition with frosted glass panels and a large window with a view of a red building. The text "SLIDE AND DIVIDE" is overlaid in the center.

SLIDE AND DIVIDE

SLIDING ROOM DIVIDERS

Long division made easy. Making the best use of open spaces can be a problem. The solution — room dividers from The Sliding Door Co. They come in many standard sizes and patterns or can be custom designed and built. Choose from a variety of finishes. Choose from frosted or clear glass. Select the number of panels you prefer. But no matter what design you specify, you'll always get the

safety of 5 mm tempered glass, the sturdiness of our proprietary-formula aluminum frames and that our smooth-gliding doors will not leave their tracks. Add to that our surprisingly-affordable prices, amazingly-fast delivery, plus environmental friendliness... And it's no wonder we're considered the industry's trendsetter. Divide and conquer with The Sliding Door Co.
