

A photograph of a modern office cubicle. The cubicle is enclosed by frosted glass panels with a light-colored metal frame. In the foreground, a white desk surface is visible. Inside the cubicle, a yellow storage bin sits on a glass-topped desk. A black office telephone is also on the desk. The ceiling features exposed silver ductwork and a single bright circular light fixture. The overall lighting is warm and focused on the cubicle area.

# SLIDING OFFICE DIVIDERS AND PRIVACY WALLS

Work spaces that work. The Sliding Door Co. brings you the brightest ideas in workspace. Walls that are as sturdy as they are beautiful. As design-flexible as they are safe. Our frames are constructed of a light-yet-strong proprietary aluminum. Our glass, whether frosted or clear, is tempered and a full 5 mm thick for safety. And our doors feature exclusive locking and roller systems, which

provide the smoothest, quietest movement on the planet plus they will not leave their tracks. Add to that our surprisingly-affordable prices, amazingly-fast delivery, plus environmental friendliness... and it's no wonder we're considered the industry's trendsetter. Work space — no matter how you divide it — the answer is always the same. The Sliding Door Co.
